Learning Mindset: RESPONSIBILITY

This term's learning mindset can be practised at home!

Being responsible means you do the things you are expected to do and accept the consequences (results) of your actions.

When we act responsibly, or do the things we are responsible for doing, we have a positive consequence. A consequence is what happens as a result of our actions.

Being responsible leads to more trust and freedom because people know they can count on you to do the things you are expected to do. Being responsible can also be a big part of keeping you safe, particularly on-line.
